J&M Technologies Holds Users Meeting

Canfield, OH, May, 2015 – Over 100 users gathered in Orlando, Fla. for the J&M Technologies User’s Group meeting to learn about the latest J&M product announcements and enhancements to its Internet Order Entry program and electronic sales tools.

The gathering enabled users of J&M Technologies’ various electronic sales tools, such as the Internet Order Entry program for online ordering and the ERA interactive sales tool for distributor reps to expand their product knowledge and ask questions about upcoming features and new products.

The next J&M Technologies’ Users Group Meeting will be held on Tuesday, October 20, 2015 in conjunction with the ISSA/INTERCLEAN show in Las Vegas, Nev.

Learn more about J&M Technologies by visiting www.jmcatalog.com or call 330-533-9000.
